

Environmental Science

Many occupations today require a college educated individual who can write and speak well, solve problems, learn new information quickly and work well with others on a team. This means that college graduates use their education in a wide variety of fields, and your future career may relate more to your personal career interests, work values and transferable skills than any specific academic major. However, the following list contains a representative sample of job titles of former graduates with an environmental science or environmental studies major. Use this as an idea list, and remember that it represents some, but certainly not all, of the careers you might consider.

Students obtaining employment immediately upon graduation are usually those with the best college records and a willingness to relocate to find a job. Some of these jobs also require education beyond a bachelors' degree.

A degree in Environmental Science allows students to specialize in either the environmental aspects of physical or biological science. Each of these areas of specialization emphasizes broad and comprehensive training in the fundamentals of mathematics, physics, chemistry, biology and earth science directly related to environmental questions. The training is for those students who wish to acquire an in-depth understanding of the impact of science and technology on society, and who wish to contribute to the solution of environmental problems.

Related Environmental Science Career Titles

*Agricultural Scientist	*Ecologist	*Forest Ranger
*Agricultural Technician	*Engineering Technician	*Forester
*Air/Water Quality Mgr	*Environmental Analyst	*Fund Raiser
*Air Pollution Analyst	*Environmental Consultant	*Geographer
*Architect	*Environmental Educator	*Geologist
*Biochemist	*Environmental Engineer	*Geophysicist
*Biologist	*Environmental Engineering	*Hazardous Waste Manager
*Biomedical Engineer	*Environmental Health Specialist	*Hydrologist
*Biotechnologist	*Environmental Lawyer	*Industrial Hygienist
*Chemical Technician	*Environmental Lobbyist	*Journalist, Author
*Chemist	*Environmental Nurse	*Management Consultant

*City Planner	*Environmental Physician	*Meteorologist
*Civil Engineer	*Environmental Planner	*Microbiologist
*Conservation Agent	*Environmental Scientist	*Natural Resource Specialist
*Conservation Systems Analyst	*EPA Inspector	*Conservationist
*Consumer Safety Inspector	*EPA Statistician	*Occupational Safety Specialist
*Earth Scientist	*Fisheries Conservationist	*Ocean Technician
*Oceanographer	*Pharmacy Technician	*Range Manager
*Outdoor Trip Leader	*Project Manager	*Resource Economist
*Park Ranger	*Public Health Veterinarian	*Seismologist
*Soil Conservation Technician	*Urban And Regional Planner	*Wildlife Manager
*Teacher	*Water/Wastewater Plant Operator	*Zoologist
